President's Message

*John
We've got this one.*

*Your friends at the Lehigh Valley Amateur Radio
Club Wish You a Speedy Recovery.*

One more thing....
Have you convinced your physical therapist that high-speed telegraphy is a radiosport so technically it should count towards your exercise regiment?

Club Presentation Update

An update to Digital Voice presentation

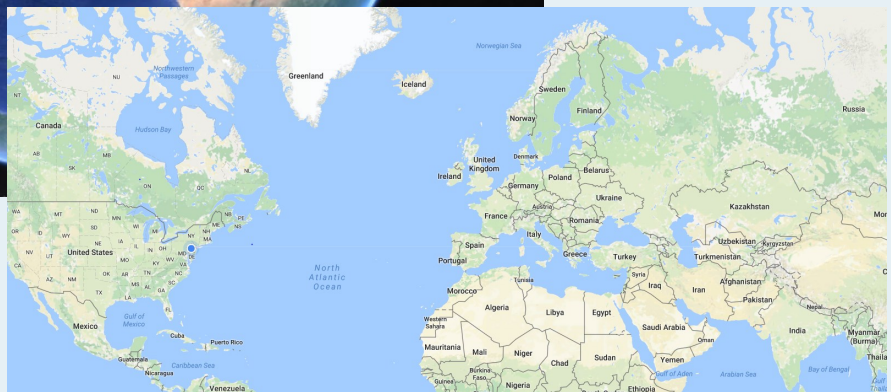

[Digital Voice, Jeffrey Bauer, WA3PNY, PDF](#)

I had a very successful QSO on 14.2360 with OE3GBB, Gerhard in Austria.

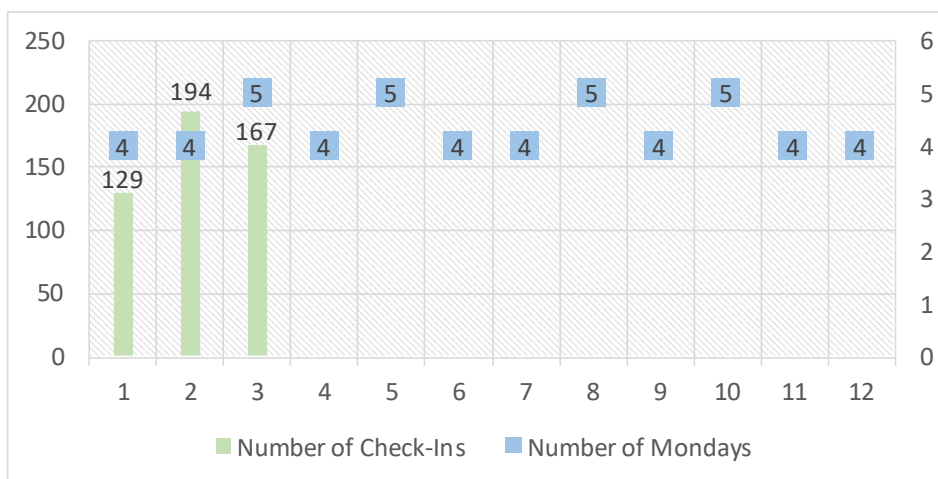

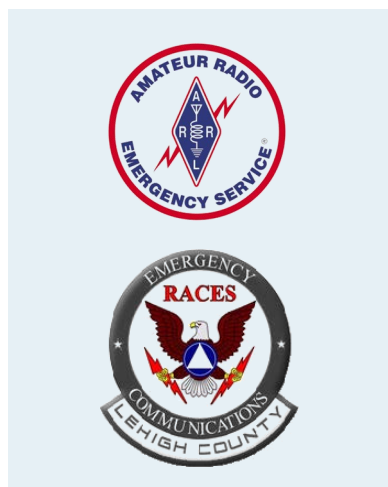

We initially used FreeDV mode 1600, and as the propagation waned, we switched to 700C mode. Both modes were clear.

The success was mainly a testament of his station, 300 watts using stacked beams. WA3PNY was using 30 watts and a 35 foot vertical.

Monday Night Traffic Net

On Monday nights at 7:30pm the club has a different kind of 'meeting' on the air called a traffic net. Members and non-members can check in and hone their emergency traffic handling skills as part of the net. The net takes place on the primary repeater used by the club on 146.94 Mhz. Messages, bulletins and traffic are handled by the net control station. Tune in for announcements of upcoming meetings and club events.
