LVARC ID Badge

If you need a new or replacement LVARC ID badge, contact Mark (AK3M) at AK3M@rcn.com.

I will:

1. print your card on card stock and send via U.S. mail to you or
2. make your card and save it as a pdf, email it to you and you can print it yourself.

I do not have a laminator but you can get it laminated at Staples or somewhere similar.

If you want it U.S. mailed to you, please include your call, name and an address where you want it to be sent.

You can also decide how you want it displayed. Many attach it to a lanyard which is available from Staples, the ARRL or other sources. You may want to put it in a card holder, also available at Staples.

The first Field Day was held in 1933. That makes this year the **90th Field Day anniversary!**

2023 LVARC Field Day Site Directions

The LVARC Field Day activity will be held as an “In Person” event! The Field Day site will be held at:

1900 Brickyard Rd. Allentown, PA

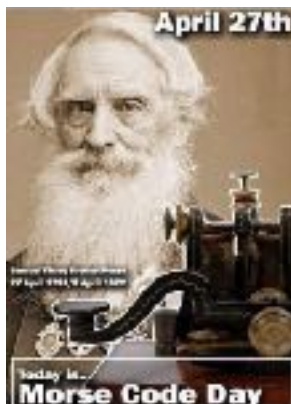

Directions to the Field Day site from Allentown:

- (1) From 22, exit at Rt 309 North to Huckleberry Rd.
- (2) Right onto Huckleberry Rd
- (3) Right onto Brickyard Road
- (4) Go to the end of Brickyard Rd.

Please remember that the railroad tracks are active and unguarded, so Stop, Look, and Listen.

Also, observe the speed limit on Brickyard Road. The houses on that road are occupied and just experience the most traffic on Field Day. We want to be good temporary neighbors. ***Come out to enjoy the weekend!***

A little late but an interesting day/date — April 27th.

What IS Field Day?

de Mark (AK3M)

Field Day is perhaps the biggest event in an amateur radio operator's year but what exactly IS Field Day?

Some say it is an **emergency preparedness event** as operators are encouraged to operate under emergency conditions where generators, coolers, portable antennas and grills are used.

Others say it is a **contest** as operators and clubs are encouraged to log their contacts and submit their scores to the ARRL, hopeful for recognition.

Field Day is also an event that challenges and sharpens the operator's skills during often difficult HF operation (phone and CW)!

I personally think Field Day is **ALL** of these as well as a great time to be outdoors on a Summer weekend with friends while participating in the the best event of the year!

However you decide to describe Field Day, don't forget to enjoy the outdoors, weather and companionship of the event!

How Do I Renew My License?

To renew, go to the ULS Home, select Online Filing, and follow the instructions below.

1. Login to the ULS **License** Manager with your FCC Registration Number (FRN).
2. From your **License** At A Glance page, choose the **Renew** link in the right hand menu called Work on this **License**.

You may renew no sooner than 90 days before expiration.

LVARC/ARRL Field Day Quiz Answer

(Answer to quiz on page 6)

Which is older?:

1. **The LVARC**
2. ARRL first ARRL Field Day

The LVARC was started in 1928 and the first ARRL Field Day happened in 1933. That means that the LVARC was established 5 years before the first ARRL Field Day!

St. Luke's Half Marathon Communication!

I emailed Dr. Mike Martinez, who is our coordinator for the St. Luke's Half Marathon each year. I thanked him for allowing the LVARC to provide communications support for the Half Marathon each year. This TNX belongs to all LVARC participants!

Mike,

I want to thank you for allowing the Lehigh Valley Amateur Radio Club to provide communications support again this year.

On Monday Night, we held an, "After Action." on air net to critique our performance of the event. The overwhelming feeling was that this was the best event we have served since we started with the Half Marathon. All went very smoothly. Even with more than 2,100 runners, there was only 3 EMS calls and 4, "Sag Wagon," calls.

Following is his reply.

"Hi Mark,

You and your team are the ones deserving of thanks. Your team has become an integral part of our medical team and it's a privilege to work with such a professional group of individuals."

A "New" Baofeng - the **AR-152** is now available. It boasts 10 watts output with many days, yes days, of receive operation.

How to Become an ARRL VE

If you are interested in becoming a Volunteer Examiner (VE) and joining the LVARC VE Team, see the information following which comes from the ARRL website.... <http://www.arrl.org/become-an-arrl-ve>

Follow these three steps to become an ARRL Volunteer Examiner:

1. Review the [Volunteer Examiner Manual](#), paying special attention to Chapter 2: Becoming a Volunteer Examiner. Read the information that extends and supports the published manual: [Supplemental Information](#).
2. Complete and sign the [VE Application form and open-book review](#) * (interactive application and 40 question review).
3. Please email, fax, or mail forms (PDF file or scanned photo image) to the address below: *

ARRL VEC
225 Main St
Newington, CT 06111 USA
Fax: 860-594-0339
Email: VEC@arrl.org

Once accredited, you will receive in the mail a colorful laminated VE badge to wear at exam sessions and a certificate suitable for framing. Please allow 3-4 weeks for the ARRL VE badge and certificate to arrive.

If you are already accredited with a VEC organization outside the ARRL, you must submit a copy of your accreditation certification along with a completed [ARRL VE Application](#) form (interactive) to the above address.

Want to be a Monday Night Net Control Operator?

August LVARC Test Session Change

The August 18 test session, usually held at Hanover Elementary School, will now be held in the LVARC meeting room. The school that we usually use is undergoing renovations starting early this Summer and it will still not be available in August.

The August 18, 2023 LVARC test session will be held at the Tri-Clover Fire Company in Orefield, PA at **4801 Kernsville Rd, Orefield, PA 1806**.

Only the location has changed. The test session will begin at 6:00p as usual. Doors will be open at 5:45p.

The LVARC is planning an auction in July, 2023

Stay tuned for details by listening to the Monday Night Net, reading the VOX, attending meetings and checking the LVARC website.

Need something to read this Summer while you are on the beach, at the lake or just sitting in the sun in your back yard?

The book, "*Radio Operator*," may be just what you need.

It is a story about an amateur radio operator who reluctantly gets involved in the Duquesne Spy Ring in New York City prior to World War II and

how that upends his life. While amateur radio is essential to the story, it is not the main plot.

This book is available at Amazon, Barnes & Noble and other sources.

(See page 36 of the June 2023 issue of QST.)

The Kid's Fest on Sunday May 21, 2003 was a great success! Although the visitors to the LVARC communications trailer were scarce, the trailer and equipment performed as designed! HF was up and running and 20 meters was rather difficult but all worked well, regardless of propagation.

Attending the Bethlehem event were Rod (**N3XG**), Richard (**KC3FEZ**), Mark (**AK3M**) and Phil (**KB3HMK**) who did double duty as an LVARC member and an event official.
