Review of the 2023 Women's 5K Classic

On a rainy October 7 day, the 31st Women's 5K Classic event was held and once again the LVARC was there to provide communications support of this event.

The sky opened and poured at about 0930 and slowed enough by the 1000 start time to get the 5K walk and run begun. Net instructions were announced at 0830 and eleven LVARC operators were on site.

NCS was parked beside the Allentown ambulance and their EMS gator and bikes. Although there were only two reported EMS cases during the 5K that required medical support, LVARC operators were "Eyes on the Course" and performed in a professional manor. The fact that few pieces of traffic were handled is a tribute to the event coordinators and the event participants. LVARC operators were there and needed. This is evidenced as we are asked back every year to help keep these participants safe.

LVARC operators who participated in this year's event included **Mark (AK3M)**, **Andy (AK3KA)**, **Don (N0VGA)**, **Larry (NR3R)**, **Mike (KC3UCX)**, **Bob (WB3JSZ)**, **Rob (AB3RC)**, **Lou (KB2VCI)**, **Mike (KC3HOJ)**, **Eric (N3EJH)**, and **Scotty (W3SGT)**. Without volunteers like them, LVARC ARES would not be possible.

NCS terminated the net at 1107.

A big TNX to all LVARC ARES members who participated and made this event possible!

Silent Auction Announcement

WHEN: SATURDAY NOVEMBER 4
DOORS OPEN 0930

WHERE: TRI-CLOVER VOLUNTEER FIRE DEPARTMENT
4801 Kernsville Road
Orefield, PA 18069

DETAILS:

The Lehigh Valley Amateur Radio Club is hosting a silent auction on Saturday, November 4th from 0930-1100. We have been fortunate to be the recipient of many quality ham radio items that can become YOURS! Club members get in free, non-members have an entrance fee of \$10.00. The starting bid for all items is \$10.00. That's right, for only \$10.00 you could be the winning bid on a Yaesu FT-817, or one of many other great items. Our auction team has reviewed all items for serviceability and has made some comments, such as if it might need a new battery, or if the operating condition is untested such as the Yaesu ATAS-100 antenna. Please see the complete list of available items with comments below. This is a fundraising event for the LVARC and a great way to get some awesome equipment for very little investment.

For additional information please contact Rodney N3XG at n3xg.radio@gmail.com

Items available for silent auction:

(All items opening bid = \$10.00)

(Minimum bid increase = \$5.00)

This promises to be a terrific event for both the sellers and buyers! See you all there!

Great Morse Code Story!

A great read!

Back when the telegraph was the fastest method of long-distance communication, a young man applied for a job as a Morse Code operator. Answering an ad in the newspaper, he went to the office address that was listed. When he arrived, he entered a large, busy office filled with noise and clatter, including the sound of the telegraph in the background. A sign on the receptionist's counter instructed job applicants to fill out a form and wait until they were summoned to enter the inner office.

The young man filled out his form and sat down with the seven other applicants in the waiting area. After a few minutes, the young man stood up, crossed the room to the door of the inner office, and walked right in. Naturally the other applicants perked up, wondering what was going on. They muttered among themselves that they hadn't heard any summons yet.

They assumed that the young man who went into the office made a mistake and would be disqualified. With-in a few minutes, however, the employer escorted the young man out of the office and said to the other applicants, "Gentlemen, thank you very much for coming, but the job has just been filled." The other applicants began grumbling to each other, and one spoke up saying, "Wait a minute, I don't understand. He was the last to come in, and we never even got a chance to be interviewed. Yet he got the job. That's not fair!"

The employer said, "I'm sorry, but the last several minutes while you've been sitting here, the telegraph has been ticking out the following message in Morse Code: 'If you understand this message, then come right in. The job is yours.'" None of you heard it or understood it. This young man did. The job is his.

Repeater report: by Rod N3XG

One of the voters, translator road, went rogue and N3RPV took that voter offline until it can be corrected.

.135 has been fine, and lots of traffic on both digital repeaters was noted.

Great to see our assets getting usage and being appreciated by our members and guests

Club Station / Trailer:

Dehumidifier had been purchased, will be setup in the club station to protect equipment.

Hands on night last month noted that the vertical antenna worked well, but the horizontal didn't do well with the RF noise that is happening in the firehouse.

A POTA station was activated during the HON.

The club trailer has some needs and is awaiting info on mast service.

A work party will be called in the coming weeks to address a few things around the station and trailer.

Old Business:

Our planned Silent auction is moving forward with a tentative date of Nov 4th, 8AM to Noon. Details to follow

Net control operators are needed for Monday night net, please contact Rod, N3XG if your willing to learn and help out the running of the net.

New Business: No new members this month

Our annual award recognizing a notable member that has contributed to the club, its operations and or events is presented at our December meeting. The award is known as the Pres Shuler Award, and we are asking for your nominations at this time. Please share your thoughts on who you feel deserves this award

Sick Call:

Jeff, WA3PNY had eye surgery and is recovering

Phil KB3HMK had foot surgery and is recovering

Chuck W3CDY fought the covid and is recovering

Good of the Order:

Just an awareness that RT 309 will be undergoing a long and painful roadwork program for the next year

or more and travel issues affect travel to the firehouse. Road widening, intersection rebuilding and turn

lanes will be added both south and north of the RT 309/Kernsville road intersection. The long and easy way around avoiding smaller back roads would be to travel Rt 100 to eastbound Kernsville Rd to come to the meetings. More details as they arrive.

Winlink event simulated emergency

Mike KC3UCX shared the following upcoming hamfests
